

### Company Overview

Fraztec Lighting specialises in the supply of energy efficient LED lamps, bulbs and fittings. Our leading suppliers are world renowned- with subsidiaries across the globe. Our range is Australian registered and approved and a number of products are registered for inclusion in the Victorian VEET and NSW ESC energy savings schemes.

Our unique approach, in sourcing products from numerous suppliers for our clients, enables our clients to make well informed choices.

Our suppliers and partners form an integral component of our team-based approach. We assist Government Agencies, Businesses large and small, electrical wholesalers and electricians. Our business is built on Trust and Integrity - our core values to ensure our success.

### Past Performance

Our LED range has been installed across Australia. It includes:-

- TE Lighting –KFC - Induction Floodlights across Australia
- Energetic Lighting – Coles - LED tubes will be installed into every Coles Store in Australia during 2015..
- LEDECO Lighting – Westmead hospital
- EO Lighting – Bankstown Council.

Locally, our clients consist of Pacific Blue Resort, Hunter Sports Centre, Hadley's Cycles, TLE Electrical, The Junction Fair Shopping Centre and many more.

### Our Partners

### Capabilities

Our key focus is the supply of quality LED products at the right price. There are over 2000 LED lighting products in our range and our list is growing.

We offer specialised services via our partners, such as Energy Audits, Energy Saving Certificate Project Management, specialised LED Solar lighting, lighting design and much more.

We offer secure online ordering through our dedicated procurement website enabling you to have flexible 24/7 access to our LED range – ideal for large organisations and specialist fields (e.g. major builders & electricians).

### Quality & Sustainability

#### Fraztec Lighting:-

- Is a proud signatory to the FluoroCycle scheme- as a Facilitator in the category of Supplier.
- A supplier for the Sustainable Choice – Local Government NSW program.
- Works with local councils to provide quality advice and information on energy saving LED lighting products.
- Promotes, educates and assists clients to reduce, reuse and recycle.
- Streamlines and maximises our supply chain (logistics) to minimise the movement of product from manufacturer to end user.
- Works with local community groups and Not-for-Profit organisations to educate about energy saving initiatives.
- Working towards achieving the principles of ISO1400 and ISO9000 by 2016.
